**TWR network page:** [www.twrnetwork.org](http://www.twrnetwork.org)

## CALL FOR ABSTRACTS

This conference aims to bring together work environment experts in all relevant disciplines, both from academia and practice. This includes, but is not limited to, physical work environment (e.g., architecture and design, building physics, bio-technology, material science), social work environment (e.g. human resources management, behavioural sciences, organisational science, business, health & safety, neuroscience, environmental psychology, philosophy), digital work environment (e.g. information communication technology, virtual reality, sensor engineering, data analytics), and management of the built environment (e.g. asset, facility and property management, economics, corporate real estate management, decision science).

Presented research can focus on an individual, team, organisational or urban scale.

All participants are expected to submit:

- An **abstract** (max. 300 words); if their abstract is accepted
- A **short paper** (max. 3500 words, excluding references) or a **poster** (max. 1 sheet); and finally
- A **presentation** for the conference!

The short papers will be reviewed by the scientific committee and published in proceedings made available open source online.

# III TWR Conference Transdisciplinary Workplace Research

7-10 SEPTEMBER 2022

Politecnico di Milano

Piazza Leonardo da Vinci, 32, Milan

The TWR network encourages both researchers and professionals to submit their abstracts and join TWR 2022

## TOPICS OF PARTICULAR INTEREST

### Social issues, like:

Safety, health, wellbeing and productivity  
Inclusion and gender issues  
Interactive VS concentrative work  
Social networks  
Workplace culture and leadership  
Activity Based/New Ways of Working  
Work patterns and activities  
The future of knowledge work

### Physical issues, like:

Ergonomics  
Office space quality  
Flexibility  
Collaborative spaces  
Distributed and networked workplaces  
Co-working spaces and other shared new working spaces  
Hybrid spaces for work (incl. homes, transport, etc.)  
Biophilic workplaces  
Sustainability and ESG in the workplace

### Technology issues, like:

Telework and tools for remote work  
Smart building technology  
Use of "big and small" data  
Digitalized office and immersive technologies  
Predictive modeling of user behavior in the workplace

### Management issues, like:

Workplace Key Performance indicators  
Managing workplace support processes  
Remote working  
Sustainable workplace  
Effectiveness and efficiency  
Strategic workplace management  
Workplace and employer branding  
Circular economy  
Workplace services

### + 2 SPECIAL SESSIONS:

1. The geography of new working spaces and the impact on the periphery (COST)
2. Academic and creative spaces on- and off-campus

\*\*\* ABSTRACT SUBMISSION WILL OPEN SOON! \*\*\*

COST is supported by the EU Framework Programme Horizon 2020
